Quick KPIs

Total programs	Unique host companies	Programs with month info	Programs in selected year range
77	59	15	15

Top host companies (by number of programs)

	company	program_count
0	GitHub	3
1	Google	3
2	Stripe	3
3	NVIDIA	3
4	Databricks	2
5	Dropbox	2
6	Microsoft	2
7	IBM	2
8	Google / OSS organizations	2
9	Outreachy	2

Select a company to drill down (or select multiple for comparison).

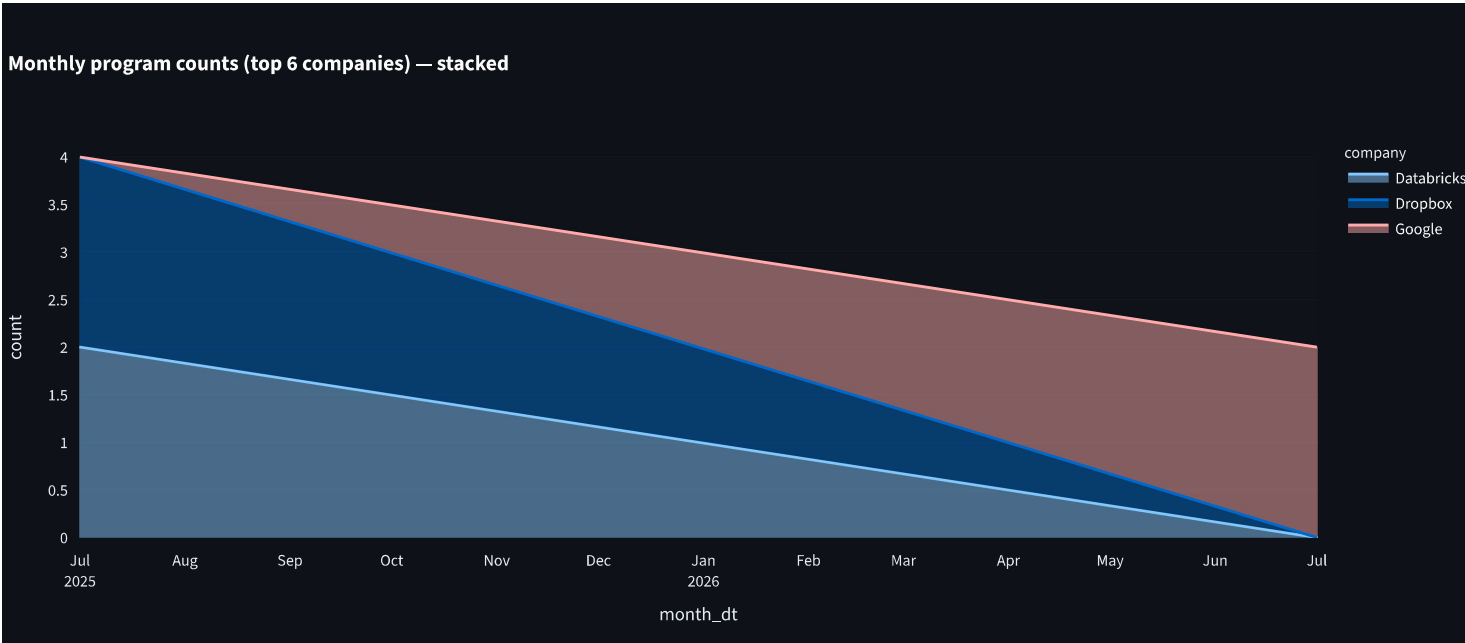

Drill-down company (single)

--All--

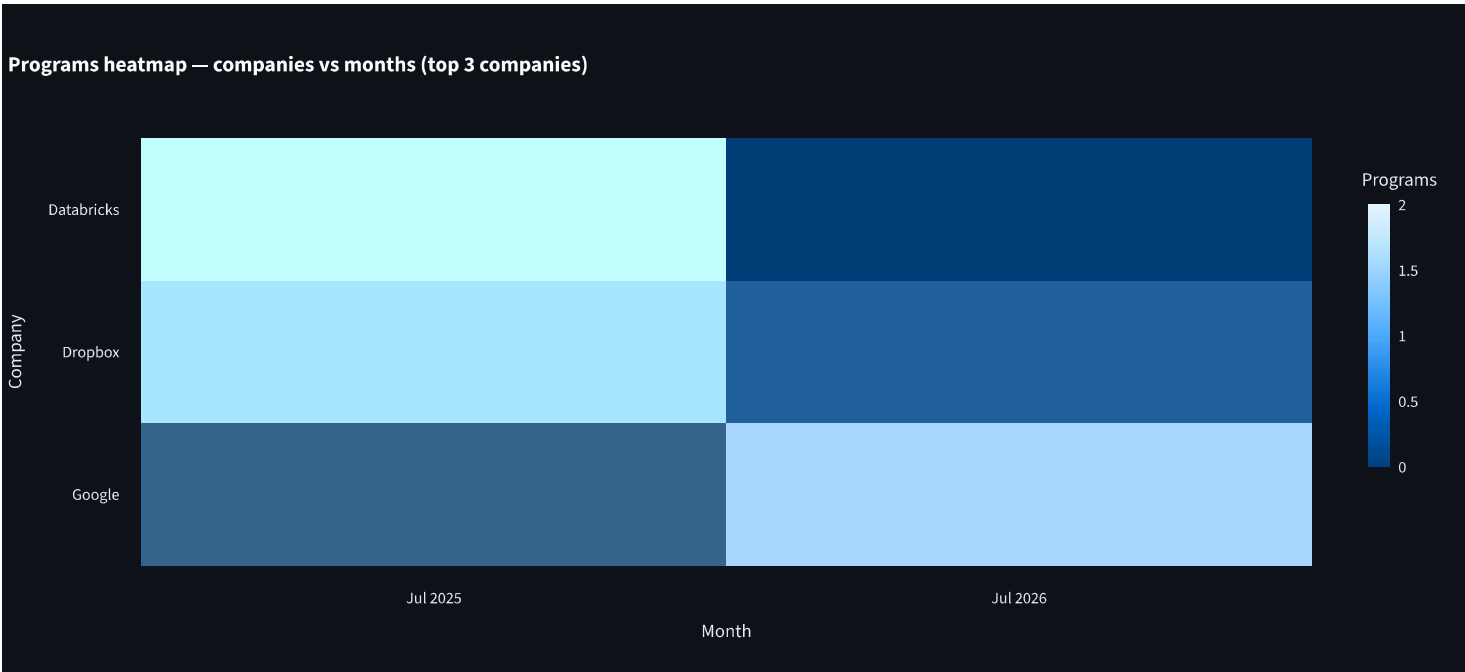

Or pick companies to compare (multi-select)

Google × Stripe × NVIDIA ×

Monthly timeline (stacked) — Top N companies

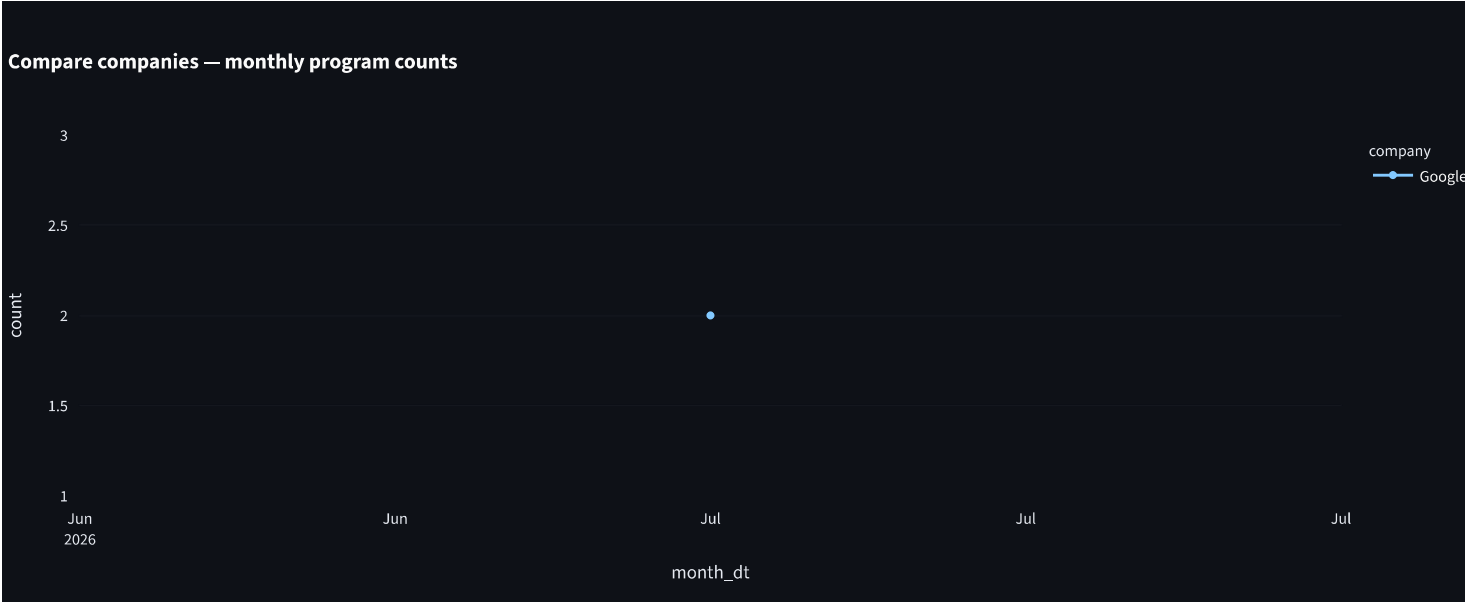

Heatmap — Companies vs Months (counts)

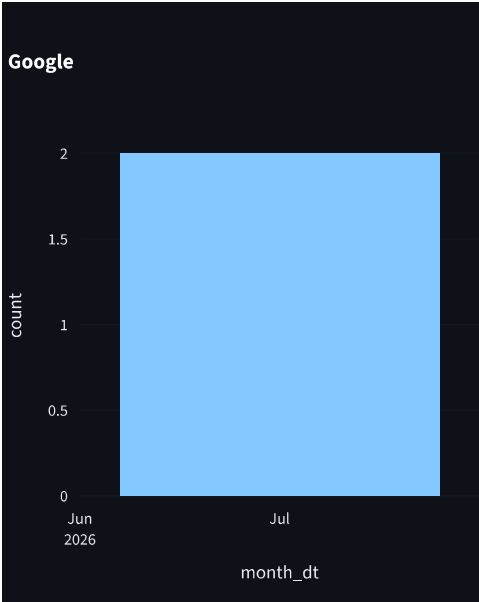

Top month per company (month with highest program count)

	company	month_label	count
0	Databricks	Jul 2025	2
1	Dropbox	Jul 2025	2
2	Google	Jul 2026	2
3	Airbnb	Jul 2025	1
4	Google / OSS organizations	Jul 2025	1
5	Google Research / Brain	Jul 2025	1
6	Lyft	Jul 2025	1
7	Meta AI	Jul 2025	1
8	Microsoft	Jul 2026	1
9	Microsoft (Azure)	Jul 2025	1

Drill-down / Comparison

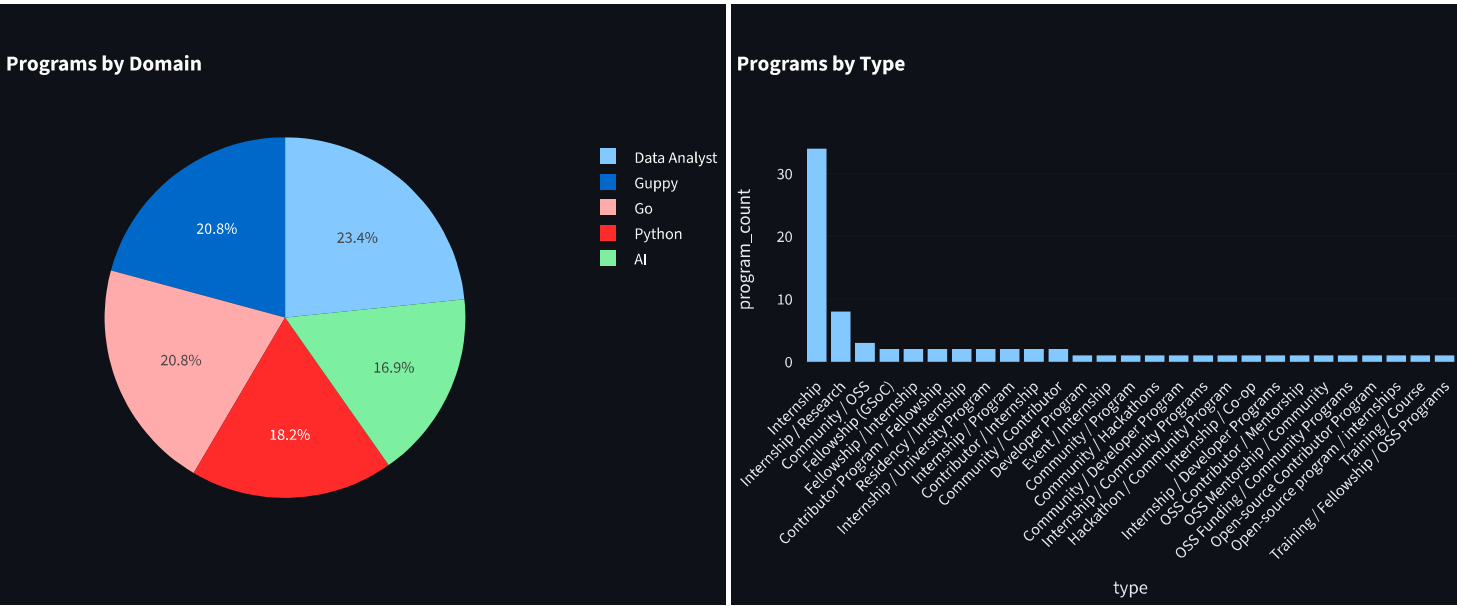

Small multiples: monthly bars per selected company

Stripe — no month data

NVIDIA — no month data

Domain & Type breakdowns

Notes

- Season → month mapping is selectable in the sidebar (you asked for Summer→June option).
- The app uses best-effort parsing for free-text `start_date` values. Explicit "June 2026" style dates produce the most accurate timeline.
- Streamlit's native plotly chart does not reliably capture JS click events for drill-down; that's why the app exposes explicit selection controls (`Drill-down` `company` and `Compare companies`) which provide deterministic drilling and comparisons.
- If you'd like, I can:
 - add clickable drill-down using a community component (e.g., `streamlit-plotly-events`) if you want that dependency,
 - produce a downloadable ZIP with these files,
 - or change the alternate season mapping to any other month numbers you prefer.
